

3 Person Team Event Rules

Each team will consist of 3 players with no more than 1 senior skill level (6 or above). All Players must be on a current, active team (8 ball or 9 ball, Masters, Ladies or Doubles), paid their 2023 membership dues, be a member in good standing with the league, have a skill level (8 Ball or 9 ball) based on at least 10 scores over the last 2 years and must have played at least 4 times in 2023. (Note: 8 ball players that do not have a 9 ball skill level or who have not played on an Open 9 ball team in over a year, may have their skill level adjusted at the discretion of the tournament director) Master players that have never played on an Open 9 ball team will enter the event as a skill level 9. Check with your league operator before registering. Any player moving up 2 skill levels or any team that has two players move up 1 skill level or anyone found to have manipulated or misrepresented their skill level in order to meet the requirements, will be disqualified from the tournament and will forfeit all entry fees and monies won. Current picture ID is required for each player. A player may be asked to show picture ID at any time and if it cannot be produced, will not be allowed to play. All higher level tournament rules apply. Please refer to pages 72-81 of the Official Team Manual.

Format: 9 Ball. APA rules and races. Each team will be placed in a flight of 4 teams. The first 3 rounds will consist of round robin play with each team playing every team in their flight once. All 3 members of your team will play in this format. There is no sudden death during this phase of the tournament, however, if your team is falling behind, you will be placed on a 2nd table by the referee. Total team points will be added together at the end of 3 rounds and the high point finishers in each flight will advance to a 64 team (based on a minimum 128 teams), modified single elimination board, All ties will be broken as described in the Official Team Manual, page 36 prior to determining which teams will advance.

- A. At least one team from each flight will advance to the modified single elimination board, with all first place teams, after tie breakers, taking the first slots.
- B. If there are not enough first place teams to fill the board, a blind draw from all 2nd place teams, after tie breakers, until the board is filled.

In the modified single elimination phase of the tournament, the match will be determined when it is mathematically impossible for one team to win. If a match is determined in the first 2 races, then the player who did not play in that match must play in one of the first 2 races in the next match played. Partial races and sudden death races do not count as a match played. This gives every player the opportunity to play and contribute to the overall success of the team. Failure to comply with this rule means forfeiture of the entire match.

Play will be on 7' tables. Your entry fee includes a greens fee for tournament play only. Tables will be open during regular tournament play. Tables will be closed during mini tournaments and practice. You are not allowed to practice on unlocked tables. Tables will be \$1 per rack

Teams that are running over the allotted time per match will be placed in sudden death. You

must have the rack in the 3rd race broken by no later than 1 hour and 30 minutes past your official start time. Any team that continually runs over the allotted time may be assessed penalties up to and including disqualification from the tournament.

100 % if the entry fees, minus the greens fees, will be paid out to the teams that advance to the 64 modified single elimination board.

Early Bird and Weekender Scotch Doubles Rules

Each team may consist of any combination of male/female players as long as the combined skill level cap of 11 is not exceeded. If a member of the team advances in skill level after the entry deadline, the team will still be allowed to participate as long as the combined skill level does not exceed 12. The race will be adjusted for those situations. The races will be as shown on the POINTS MUST WIN chart as listed below. 100 % of the entry fees, minus greens fees, will be paid to approximately 25% of the field. The number of entries will determine the percentage of teams that will receive payout.

Format: 9 Ball, modified single elimination. The 2 players of each team will alternate shots starting with the first break and continuing the rotation throughout the entire race. For example, player A legally pockets the 9 ball to end the game, player B will then break the next rack. It is up to each team to keep track of who shot last. The opposing team must alert their opponent if the wrong player is shooting. The same player may lag and take the first break. Failure to keep the proper rotation will result in a ball-in-hand foul charged to the offending team and a sportsmanship violation issued to the non-offending team. Both teams need to make sure that the proper rotation is kept throughout the entire race.

20 second shot clock should be the standard. There will be no talking to your partner when it is your team's turn at the table, except during a timeout. Either player may place the cue ball in a ball in hand situation during a timeout only. Only 1 timeout (1 minute) will be allowed per team, per game. Only one person at the table at a time, except during a timeout.
